

WATER ISAC

CHAMPION PROGRAM

*Play a critical role in keeping the water sector
and those they serve secure.*

MEMBERSHIP BREAKDOWN

WHAT IS WATERISAC?

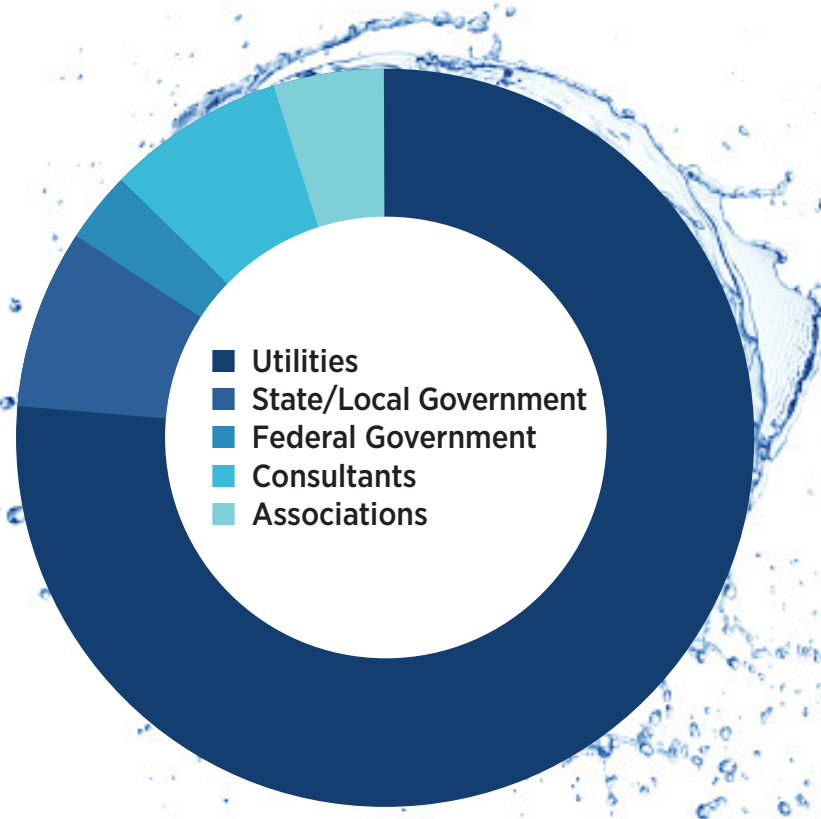

The Water Information Sharing Analysis Center (WaterISAC) is the gateway to cyber and physical threat information and best practices for the water and wastewater sector. Membership includes 3,400 active users across more than 500 water sector utilities and companies serving 221 million Americans and consumers in Canada, Australia, and New Zealand.

WHAT IS THE WATERISAC CHAMPION PROGRAM?

The WaterISAC Champion Program was established because our 500+ utility members and thousands of others from around the globe - benefit from the experience and thought leadership offered by consultants, advisors and technology providers.

Champions can increase the knowledge and awareness of thousands of utilities on threats, best practices, and solutions to reduce cybersecurity and physical risks.

By leveraging WaterISAC, your offerings will be at the forefront of those offered by your competitors.

WHAT IS A WATERISAC CHAMPION?

WaterISAC Champions are subject-matter experts in physical and cyber security, resilience, and emergency preparedness. Their firms offer support to our members and the sector at-large. They are leaders in their spaces and one-of-a-kind solution providers.

As a WaterISAC Champion, your firm will receive benefits and recognition for providing actionable, water-sector-relevant content to help improve security, resilience, and emergency response in our critical infrastructure sector.

Be part of the WaterISAC family and select the Champion tier that best fits your firm and overall goals.
