

Dear Customers:

On January 11, 2023, Carus LLC had a fire at our manufacturing facility in LaSalle, IL. We are thankful that the fire was extinguished and all of our team members are safe. As you may be aware, Carus operates and maintains multiple phosphate manufacturing facilities in the United States. We also have a dedicated logistics group with a fleet of trucks that exclusively serve Carus customers. **We do not anticipate a significant impact to our phosphate production or customer deliveries.**

Carus has taken the necessary steps to protect our employees and continue to supply our customers with phosphate products. Additional details on the potential impact to our permanganate product lines will be forthcoming.

Thank you for your business and for continuing to put your trust in Carus. We will provide updates if any unforeseen circumstances arise.

Regards,

Kelly Frasco
Director of Product Management

Carus
315 5th Street
Peru, IL 61354
